

Lincad supplies local hospital with pager batteries

Press Release – 5th December 2014

Lincad, a leader in the design and manufacture of specialist batteries, chargers and power management systems, is pleased to confirm another delivery of batteries to Frimley Park Hospital in Surrey for use in the pagers of all medical staff on site.

This is an example of the company's ability to deliver power solutions tailored to the specific requirements of individual customers across a range of different sectors. Under an arrangement designed to be as responsive as possible to the hospital's needs, Lincad delivers the batteries from its nearby base in Ash Vale as and when a simple telephone order is placed.

Brian Soden, Lincad's Managing Director, commented: *"Whilst the volumes involved in this contract are relatively small, we are delighted to have the opportunity to provide a service for our local hospital. The fact that Frimley Park has placed its confidence in us also means that we are established as an NHS-approved supplier".*
